

JOIN OUR TEAM

Architect Level III

MMW Architects is dedicated to contributing positively to the built environment while working in harmony with the natural environment. We believe Architecture has the power to make a positive difference in the world and are committed to creating design solutions that contribute to that philosophy in all of our work.

Our office is in Missoula, Montana. Missoula is surrounded by spectacular natural beauty in the mountains of Western Montana at the confluence of three rivers. It is a vibrant college town where outdoor adventure and urban amenities meet. From MMW's office in downtown Missoula, you can hike up a mountain in the morning, swim in the river at lunch, and take in a concert in the evening.
